

Expand Your Team. Accelerate Your Vision. AWS Experts When You Need Them—No Hiring Required.

AWS Services—Expert Staff Augmentation

Although NexusTek delivers fully managed, outcome-based AWS solutions, we recognize that sometimes what customers need most is extra hands or expert minds to complement their own teams. NexusTek's **AWS Services – Expert Staff Augmentation** provides flexible, on-demand access to certified AWS cloud architects, engineers, and specialists across a wide range of cloud, security, data, and infrastructure specialties to strengthen your team and deliver outcomes faster. Whether you need a single AWS Solutions Architect or a Tiger Team purpose-built to address complex, cross-functional challenges, NexusTek offers fractional, full-time, short-term, or long-term engagements to meet your resourcing needs.

WHO IT'S FOR

-  **IT Leaders**
CIOs, CTOs, and IT Directors needing expert resources to accelerate delivery.
-  **Cloud & Infrastructure Managers**
Seeking to augment their operational capacity or project delivery.
-  **Engineering & DevOps Teams**
Looking to extend their capabilities cost-effectively.
-  **Security & Compliance Leaders**
Seeking to strengthen cloud security and governance.
-  **Project & Program Managers**
Searching for specialized teams to support strategic initiatives.

KEY BENEFITS

Accelerate Project Delivery
Add specialized AWS skills without delays.

Expand Team Capacity On-Demand
Quickly scale up or down based on business needs.

Gain Access to Certified Experts
Leverage NexusTek's deep bench of certified AWS and multi-cloud professionals.

Drive Better Business Outcomes
Align the right talent to your most critical priorities.

Reduce Risk on Complex Initiatives
Rely on experienced specialists and Tiger Teams to guide delivery.

Avoid Hiring and Retention Challenges
Skip the cost and risks of hiring and retaining full-time talent.

Flexible, Cost-Effective Resourcing
Avoid long-term staffing overhead with as-needed expert augmentation.

HOW IT WORKS

Finding, hiring, and retaining top-tier cloud talent is increasingly difficult and expensive for enterprises. By partnering with NexusTek, organizations can eliminate the burden of recruiting, onboarding, and retaining niche technical talent while gaining immediate access to proven, certified experts who can start delivering value on day one.

Our experts are fluent in AWS-native services such as:

- **AWS Control Tower, AWS Organizations, AWS Service Catalog, and Landing Zone** automation
- Infrastructure as Code (IaC) with **Terraform, AWS CloudFormation, and AWS Cloud Development Kit (CDK)**
- **Amazon CloudWatch, AWS CloudTrail, and AWS X-Ray** for observability
- **AWS CodePipeline, CodeBuild, and CodeDeploy** for CI/CD automation
- **Amazon WorkSpaces, AppStream 2.0, and hybrid VDI** solutions

- **Amazon Redshift, QuickSight, and AWS Glue** for data analytics
- **Amazon Bedrock, SageMaker, and Generative AI** readiness services
- Zero Trust architectures with **AWS Identity and Access Management (IAM), AWS Identity Center, and AWS Organizations**

We support projects ranging from cloud platform engineering and data platform modernization to AI infrastructure readiness, security hardening, site reliability engineering, and cloud cost optimization. NexusTek's Tiger Teams bring together a cross-section of experts—cloud architects, security engineers, data specialists, and DevOps resources—to tackle your most critical and complex initiatives.

Whatever your specific needs—strategic guidance, operational support, or specialized execution—NexusTek delivers the right expertise, at the right time, with the right fit for your business without the long-term hiring risk.

FEATURES

Certified AWS and Multi-Cloud Experts

Solutions Architects, SREs, DevOps Engineers, Security Specialists, Data Engineers, and more.

Flexible Engagement Models

Fractional, full-time, short-term, or long-term support.

Tiger Team Capabilities

Purpose-built, cross-functional teams for complex projects.

AWS-Native and Multi-Cloud Experience

Deep expertise across AWS, Azure, GCP, and private cloud.

Broad Skill Coverage

Cloud architecture, security, DevOps, data, AI, VDI, FinOps, ITSM integration, and more.

Project-Based or Team Augmentation

Expand your team or offload specialized projects.

Reduced Hiring Overhead

Eliminate recruiting, onboarding, and retention challenges.
