

# Modern Work, Delivered— Empower Your Workforce Anywhere, Anytime, Securely.

## NexusTek Modern Work Enablement Services

NexusTek provides **comprehensive Microsoft Modern Work services** designed to help organizations transform how their employees work, collaborate, and stay secure—whether in the office, at home, or on the go. Backed by over 1,000 successful Microsoft projects, NexusTek helps organizations unlock productivity, collaboration, and security using **Microsoft 365, Teams, Entra ID, Microsoft Defender for 365, Windows 365, Azure Virtual Desktop (AVD), Microsoft Intune, and Windows Autopilot.**

### WHO IT'S FOR

 **Business Leaders & Executives**  
Enabling organizational agility and secure hybrid work.

 **IT Directors & Managers**  
Simplifying Microsoft 365, Teams, and AVD adoption and operations.

 **Security & Compliance Officers**  
Strengthening data protection and regulatory compliance.

 **End-User Support Teams**  
Enhancing user satisfaction through adoption and training.

 **Mid-Size Enterprises & Growing Businesses**  
Modernizing collaboration and security with Microsoft cloud technologies.

### KEY BENEFITS

 **Enable Secure Hybrid Work**  
Support anywhere work with secure access to apps, data, and devices.

 **Modernize Device Management with Intune**  
Centrally manage devices across your workforce with cloud-based policies and security controls.

 **Simplify Device Deployment with Autopilot**  
Eliminate manual provisioning by enabling employees to self-deploy secure, compliant devices from anywhere.

 **Drive Collaboration & Productivity**  
Empower teams with Microsoft 365 tools like Teams, SharePoint, and OneDrive.

 **Strengthen Cybersecurity Posture**  
Protect users, data, and devices with Microsoft Defender for 365 and Zero Trust architecture.

 **Meet Compliance Requirements**  
Manage risk with Microsoft Purview's data governance solutions.

 **Increase User Adoption**  
Ensure employees maximize the value of new tools through structured change management.

 **Leverage Proven Expertise**  
Benefit from NexusTek's experience delivering over 1,000 Microsoft Modern Work projects.

 **Simplify IT Operations**  
Reduce complexity with managed identity, device, and security services.

## HOW IT WORKS

NexusTek's **Modern Work Enablement Services** span the entire Microsoft Modern Work portfolio, delivering **end-to-end solutions** that include productivity, collaboration, security, and modern endpoint management.

Our certified experts have delivered projects that include:

- **Microsoft 365 Adoption & Optimization:** Exchange Online, SharePoint, OneDrive, and Teams deployments.
- **Teams Phone and Collaboration Solutions:** Voice, meetings, and collaboration in a single secure platform.
- **Hybrid Work Enablement:** Deploying **Azure Virtual Desktop (AVD), Windows 365 Cloud PC, and Entra ID (Azure AD)** for secure remote work.
- **Microsoft Defender for 365:** Comprehensive protection across email, identity, devices, and collaboration tools.
- **Compliance & Data Governance:** Leveraging **Microsoft Purview** to meet regulatory and data protection requirements.
- **Identity & Access Management:** Implementing Single

Sign-On (SSO), Multi-Factor Authentication (MFA), and Conditional Access policies.

- **Modern Device Management with Microsoft Intune:** Centralized cloud-based management of Windows, iOS, Android, and macOS devices, including policy enforcement, security baselines, and compliance management.
- **Zero-Touch Provisioning with Windows Autopilot:** Streamlining device setup and deployment, allowing employees to securely provision their devices from anywhere without IT intervention.
- **Change Management & User Adoption:** Driving user adoption through training, communication, and change management best practices.

NexusTek takes a **consultative, business-outcome-driven approach**, starting with discovery workshops to align technical delivery with your business priorities. Whether you're migrating to Microsoft 365, securing your hybrid workforce, deploying modern device management, or enhancing user adoption, NexusTek ensures Microsoft Modern Work works for you.

## FEATURES

### Microsoft 365 Deployment & Optimization

Exchange, SharePoint, Teams, OneDrive, and Office Apps.

### Teams Phone & Collaboration

Voice, video, chat, and meetings in a unified platform.

### Hybrid Work Enablement

AVD, Windows 365, and secure remote access with Entra ID.

### Microsoft Defender for 365 Security

Threat protection across the Microsoft ecosystem.

### Compliance & Data Protection

Microsoft Purview for governance, retention, and regulatory alignment.

### Identity & Access Management

MFA, SSO, Conditional Access, and Zero Trust security enablement.

### Modern Device Management with Microsoft Intune

Cloud-based device management, policy enforcement, and security compliance.

### Windows Autopilot Zero-Touch Deployment

Streamlined, user-driven device setup for remote or in-office employees.

### Change Management & User Enablement

End-user training, adoption campaigns, and executive sponsorship programs.

### End-to-End Project Delivery

From discovery and planning to execution, optimization, and ongoing support.
