nexustek

Zero Trust Network Access

powered by

timus

NexusTek delivers cutting-edge IT solutions designed to enhance network protection, secure remote access, always-on connectivity, and productivity tracking. Our comprehensive and scalable services ensure robust cybersecurity, seamless remote operations, uninterrupted connectivity, and optimized performance. Together with Timus, NexusTek empowers companies to achieve measurable results, drive business growth, reduce costs, and mitigate risks effectively.

Intelligent Network Protection

NexusTek's intelligent network protection delivers adaptable, scalable security tailored to each user. It ensures robust remote connectivity and safeguards users at the edge of your network, enabling secure and efficient operations from anywhere.

Adaptive Cloud Firewall

Timus cloud firewall intercepts encrypted traffic, allowing administrators to customize user-based policies in Timus manager to tailor network access according to needs.

Secure Web Gateway

Utilizing an extensive malicious database, the system blocks harmful content, while gateway filtering prevents users from accessing unauthorized web content.

Track Productivity

Timus Productivity Tracker reveals daily activities, offering admins company-wide metrics for optimal team performance.

Secure Remote Access

NexusTek ensures secure remote access with zero-trust network architecture, providing seamless, always-on connectivity for users, whether they are using laptops, mobile devices, or tablets. Our solution brings effortless security, enabling employees to work securely and efficiently from any location.

Mobile Device Management

Mac, Windows plus iOS, and Android support enable connectivity for PCs, tablets, and mobile devices.

Reliability and Performance

Private tunnels selected within 48 global Timus PoPs ensure minimal latency and high availability.

Zero Trust Security

Leveraging adaptive MFA based on behavioral analytics ensures that users are who they say they are.
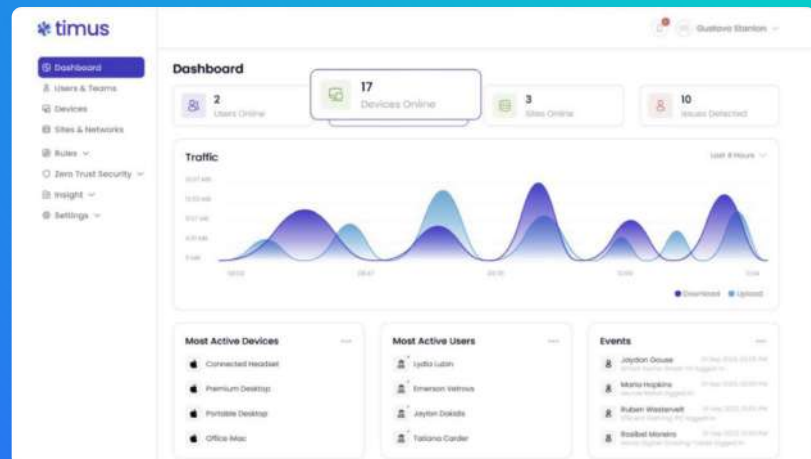

Always-On Connectivity

Remote access is made simple, ensuring you stay connected and protected while working from anywhere. Open your device and go — access corporate data and SaaS applications on the go without worrying about insecure networks or information breaches. Timus, powered by intelligent identity-based protection, ensures your credentials are never weaponized, providing a seamless and secure experience for all your connectivity needs.

Minimize Your Risk. Maximize Your Productivity

You can achieve a more productive day without the threat of security risks.

- Timus Secure Gateway ensures safe web browsing.
- Gain insights into key metrics with Productivity Insights.
- Understand screen time allocation to maximize workdays.
- Tailored functionality and customization for business needs.
- Equipped with automated reports providing actionable insights.

Intelligent Network Protection

NexusTek's intelligent network protection delivers adaptable, scalable security tailored to each user. It ensures robust remote connectivity and safeguards users at the edge of your network, enabling secure and efficient operations from anywhere.

Core Features

Benefit from zero-trust network access, an always-on VPN, an adaptive cloud firewall, a secure web gateway, and site-to-site connectivity, all utilizing a zero-trust approach to modern network security.

Who Benefits

Remote and hybrid workforces, business owners, C-suite executives, IT professionals, and HR teams by ensuring productive and protected users, offering maximum visibility and control for admins, and reducing cybersecurity insurance premiums, impacting both the top and bottom lines.

The Difference

This solution is 100% cloud-based, requiring no infrastructure adjustments and deploying in just 15 minutes. Enjoy complimentary white-glove onboarding and the support of a dedicated 24/7 team. Experience lightning-fast speeds with our globally high-availability infrastructure, ensuring seamless and reliable performance.

Productivity Score

The Productivity Tracker, part of the Timus SASE solution, is designed to empower decision-makers. Stay ahead of Key Performance Indicators with comprehensive Productivity Metrics, including a company-wide productivity score, detailed productivity reports on trends, and activity metrics for both individual users and teams. This tool ensures you have the insights needed to optimize performance and drive business success.

- Detailed productivity score based on total time worked compared with time spent in productive, unproductive, or neutral sites and applications
- Automated company-wide summary
- Predefined or customized categorization of applications
- Site-to-site connectivity
